NVIDIA Fellowship Program (good for international students too) - NVIDIA partners with industry leaders to tackle some of the most complex visual computing challenges. We're creating profound change in industries such as medical imaging, space exploration, automotive design and film production. We've only scratched the surface of what we can accomplish when we apply our technology to it. We need innovative and talented doctoral students, who aren't afraid of a challenge, to help us tackle these opportunities.

Deadline: Early February

American Association of University Women - American Fellowships - American Fellowships support women doctoral candidates completing dissertations or scholars seeking funds for postdoctoral research leave from accredited institutions. Applicants must be U.S. citizens or permanent residents. Candidates are evaluated on the basis of scholarly excellence, teaching experience, and active commitment to helping women and girls through service in their communities, professions, or fields of research. Deadline: November 15th.

NSF (National Science Foundation) predoctoral fellowships - The National Science Foundation's Graduate Research Fellowship Program (GRFP) helps ensure the vitality of the human resource base of science and engineering in the United States and reinforces its diversity. The program recognizes and supports outstanding graduate students in NSF-supported science, technology, engineering, and mathematics disciplines who are pursuing research-based master's and doctoral degrees in the U.S. and abroad. The NSF welcomes applications from all qualified students and strongly encourages under-represented populations, including women, under-represented racial and ethnic minorities, and persons with disabilities, to apply for this fellowship. Deadlines: Early to mid November – specific to field of study.
