

## ACADEMIC DISHONESTY

### **The following is an excerpt from the UCSD General Catalog section on Academic Dishonesty:**

*No student shall engage in any activity that involves attempting to receive a grade by means other than honest effort, for example:*

- (A) No student shall knowingly procure, provide, or accept any materials that contain questions or answers to any examination or assignment to be given at a subsequent time.
- (B) No student shall complete, in part or in total, any examination or assignment for another person.
- (C) No student shall knowingly allow any examination or assignment to be completed, in part or in total, for himself or herself by another person.
- (D) No student shall plagiarize or copy the work of another person and submit it as his or her own work.
- (E) No student shall employ unauthorized aids in undertaking course work.
- (F) No student shall, without proper authorization, alter graded class assignments or examinations and then resubmit them for regrading.

### **The following are additional examples not listed in the General Catalog specific to programming classes:**

- (A) No student shall provide their assignments, in part or on total, to any other student in current or future classes of this course. No student shall procure or accept assignments from any other student from current or prior classes of this course.
- (B) All programming code and documentation submitted for evaluation or existing inside the student's computer accounts must be the student's original work or material specifically authorized by the Instructor. Use of other student's course work, in part or in total, to develop, complete or correct course work is unauthorized.
- (C) Collaborating with other students to develop, complete or correct course work is limited to activities explicitly authorized by the Instructor. Use of other student's course work, in part or in total, to develop, complete or correct course work is unauthorized.
- (D) For all group assignments, each member of the group is responsible for the academic integrity of the entire submitted work.

Each student is responsible for knowing and abiding by UCSD's policies on Academic Dishonesty and on Student Conduct. Any student violating UCSD's Academic Dishonesty or UCSD's Student Conduct policies will earn an 'F' in the course and will be reported to their college Dean for administrative processing. Committing acts that violate Student Conduct policies that result in course disruption are cause for suspension or dismissal from UCSD.

Authorized course assistance is available in person and via email from the Instructor, lab tutors, and OASIS.
