Construability

- It is not infinitely flexible
  - * Dogs and other polar bears (virtually unconstruable)

- Transitive relations (container-schema)
  - examples of non-transitivity?
    A hang glider is a type of glider
    A glider is a type of airplane
    * A hang glider is a type of airplane
Construability (Cont’d)

- non-transitivity can be explained with **dynamic construals**
  - boundaries
  - prototypes
