**Word Concept Study Sheet for Midterm 2**

**Note:**
This word concept study sheet is a keyword **guide**. It is a non-exhaustive list of important concepts that you need to understand. We are posting it in order to help you get oriented with the material, but it is not meant to be taken as a static restrictive list of words that you need to memorize. What we want form you is that you comprehend the ideas underlying the material we have been covering and the relationship between the various concepts we have been studying. The list has been conceived for this purpose. We hope you find it helpful.

**List:**
Construal operations, metaphorical expression, conceptual metaphor, figure, ground, viewpoint, deixis, Gestalt structural schematization, classical categories, conceptual categories, necessary and sufficient conditions, prototype models, graded centrality, goodness of exemplar, list of attributes, similarity, basic level categories, sense, relations, hyponymy, hyperonymy, metonymy, antonymy, entailment relations, construability, transitive relations, dynamic construals, conceptual metaphor, inference preserving, spatial construal of time, ego-moving, time-moving, source domain, target domain, mapping, Ego RP, Time RP, uni-dimensional space, priming experiment, psychological (or cognitive) reality, Aymara, morpheme gloss, gesture, coproduction, micro-movements, converging evidence, operationalization, comprehension vs. production, structuralism, formalisms, computable phenomena, embodied mind, synchronicity, interlocutor, development, complementary, handshapes, gesture space, gesture unit, gesture phrase, phase, preparation, stroke, retraction, hold, taxonomy, representational, iconic, metaphorics (gestures), pantomimes, deictics, emblems, beats, signs, coding transcription, gesture continua, semiosis, conceptual blending, counterfactuals, input spaces, blended space, entailment, cognitive mechanism, selective projection, inferences, inferential structure.
